

Many People Have Mistaken Ideas About the Banking Business

Some people think a bank is a place only for those who are in business—for people who have to borrow to build homes, or for people who have considerable money to deposit. A bank is a place for every one—for those who wish to start to save, as well as a safe place to keep their money for those who have already saved. It's a mistaken idea when any one thinks he can get along without a bank as well as he can with one.

If you are one of them we invite you to come to the bank and talk with our officers—We will show you in a very few minutes that you ought to

The Modern Way

You can't judge a man by the clothes he wears; nor by the amount of cash he carries. It's out-of-date to "flash a roll of bills."

Successful men in Pascagoula and community carry only a few dollars for "pocket money" and keep the rest in a checking account. They know the safety, convenience and economy of paying bills by check.

Start a checking account at the Merchants & Marine Bank and see for yourself that it is the modern way—the BEST way to handle your money.

Goodyear Mileage—and Tires for Small Cars

A well built tire yields much more mileage for each dollar of cost than a tire purposely made to be offered at a sensationally low price; buy the tire, not the price.

Built to deliver exceptional mileage at exceedingly low cost, Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, save inconvenience, disappointment and money.

Their value results from the application of Goodyear experience, expertness and care to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for the real worth and endurance that Goodyear builds into them.

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? \$4.50
